ABOUT

Computer Science Engineering student has strong foundation in DSA. Skilled in Java, Javascript, and software development, passionate about building efficient web applications and solving real-world problems. Seeking to grow as a Software Development Engineer and contribute to impactful projects..

SKILLS

- **Programming Languages:** Java, JavaScript, Python, C,C++
- **Web Technologies :** HTML5, CSS3, React.js, Responsive UI, Frontend Development
- **Backend & APIs:** RESTful APIs, API Integration
- **Core Computer Science:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Algorithm Design, Problem Solving
- **Soft Skills:** Analytical Thinking, Technical Communication, Collaboration, Adaptability, Fast Learner

EDUCATION

- **Computer Science Engineering** CGPA: 9.8/10
  Guru Gobind Singh Indraprastha University - New Delhi, India (Expected : 05/2028)
- **Class XII (CBSE) |**Kendriya Vidyalaya Hindan, Ghaziabad 94.4% | 2023
- **Class X (CBSE) |** Kendriya Vidyalaya Borjhar ,Guwahati 94.6% |2021

ACADEMIC PROJECTS

- **SMART BUDGET MANAGER — Expense Tracking & Financial Planning Web App**
  Tech Stack: HTML, CSS, JavaScript, Chart.js, REST APIs | GitHub
  - Built a full-stack web application enabling users to track income, expenses, and monthly budgets in real time, reducing manual financial tracking effort by ~100%.
  - Visualized spending patterns using interactive pie charts and bar graphs via Chart.js, improving data readability and user decision-making
  - Implemented a dynamic UI for adding and managing expense records, supporting efficient CRUD operations through REST API integration.

- **RecycloMania – Educational Recycling Web Game**
  Tech Stack**:** HTML, CSS, JavaScript | GitHub
  - Designed and developed an interactive gamified web application using JavaScript to promote environmental awareness, solving a real-world problem through engaging UX.
  - Implemented scoring logic, level progression, timer, and responsive UI, applying problem-solving and algorithmic thinking.
- **Portfolio Website**
  Tech Stack: React.js, CSS, API/Email Service, Cloud Deployment
  - Designed and developed a fully responsive portfolio website using React.js to showcase projects and technical skills to recruiters and hiring managers
  - Integrated a functional contact form via an API/email service, enabling direct recruiter outreach with zero third-party form tools
  - Deployed and maintained the site on a cloud platform, ensuring 24/7 availability and demonstrating knowledge of CI/CD and hosting workflows.

ACHIEVEMENTS

- Qualified for **Internal Round – Smart India Hackathon 2025**.
- **1st Rank in First Year (CGPA: 9.7)**
- Aspiring Software Development Engineer (SDE-1) with strong foundation in Data Structures, Algorithms, and Web Application Development.
- **School Topper**, Class 12 (CBSE).
